

DO NOT PACK PORK

China has recently had an outbreak of African swine fever
IT IS DEADLY FOR PIGS

Pork meat or pork meat products from overseas could introduce serious exotic diseases to Australia that could devastate our valuable livestock industries and stop our meat products being exported.

Enjoy the delicacies while you're travelling but **DON'T BRING THEM INTO AUSTRALIA**

Examples include:

- pork
- ham
- salami
- sausage
- small goods
- jerky

STOP THE SPREAD!
