

CHAPTER 4.Y.

OFFICIAL CONTROL PROGRAMMES MANAGEMENT
OF
OUTBREAKS OF FOR LISTED AND EMERGING
AND LISTED DISEASES

Australian Comments – indicated in blue font

GENERAL COMMENT

Australia notes that the term 'cull' does not appear anywhere else in the OIE Terrestrial or Aquatic Animal Codes. Australia recommends that the words 'kill' and '*killing*' replace 'cull' and 'culling' in this chapter. This would be consistent with the Glossary, which defines '*killing*' and Chapter 7.6. 'Killing of animals for disease control purposes'.
