

	Disease	Country	Institution	Contact	Activities					
					Provide reference reagents	Provide diagnostic testing	Provide scientific and technical advice	Provide scientific and technical training	Other supports	Upcoming support
Terrestrial	Chronic wasting disease	Korea	Prion Disease Research Laboratory, Division of Foreign Animal Disease, Animal and Plant Quarantine Agency (QIA), Ministry of Agriculture, Food and Rural Affairs (MAFRA)	shonhi@korea.kr	No information					
Terrestrial	Classical swine fever	China	China Institute of Veterinary Drug Control (IVDC)/Center for Veterinary Drug Evaluation (CVDE), Department of Reference Substance Research	wq551@vip.sina.com ncsfri_ivdc@163.com	<ul style="list-style-type: none"> Positive serum against CSF virus (CSFV, IVDC approved reference material) and CSFV negative serum (IVDC approved reference material) We can provide these reagents by request free of charge with small amount (exclude postage fee) 	<ul style="list-style-type: none"> Method of RT-nPCR for detection of classical swine fever virus (national standard), Method of the real-time RT-PCR for detection of classical swine fever virus (national standard). We can provide these reagents by request free of charge with small amount (exclude postage fee) ELISA for CSFV antibody detection (national standard) can be purchased from Chinese commercial companies 	<ul style="list-style-type: none"> Provide P3 facility for training Timely participation in OIE standards revisions and suggestions 	<ul style="list-style-type: none"> Provide scientific and technical training on CSF for personnel to interested OIE member countries or Asia-Pacific countries and regions 	<ul style="list-style-type: none"> Every year : Provide a scientific and technological training on CSF for personnel to interested OIE member countries or Asia-Pacific countries and regions every year 2021 : Organize an academic symposium every two years. We have organized two conferences in 2017 and 2019 respectively, and Received high praise and attention. We plan to organize the next one with 350-500 participants in 2021. everyone is welcome to attend. 	
Terrestrial		Chinese Taipei	Animal Health Research Institute (AHRI), Division of Hog Cholera	cychang@mail.nvri.gov.tw	<ul style="list-style-type: none"> CSFV RNAs of different genotypes and CSFV sera against different genotypes 	<ul style="list-style-type: none"> CSFV virus isolation, CSFV RT-PCR/qRT-PCR, CSFV sequencing/genotyping, CSFV virus neutralization test, CSFV Antibody-ELISA 	Yes	Yes	<ul style="list-style-type: none"> 2021: Southeast Asia Regional Proficiency Testing of Classical Swine Fever Virus 	
Terrestrial		Japan	Exotic Disease Research Station, National Institute of Animal Health, National Agriculture and Food Research Organization	fukai@affrc.go.jp		<ul style="list-style-type: none"> Virus isolation, FA, IFA, RT-PCR, real-time RT-PCR, nucleotide sequencing, ELISA and FAVN 	<ul style="list-style-type: none"> Provide protocols and technical advice of the diagnostic testing. 	<ul style="list-style-type: none"> A training course for the laboratory assays to staffs of laboratories in member countries. 	<ul style="list-style-type: none"> 2020: A training course to a staff of a laboratory in Myanmar (TBC): International meeting to share the scientific knowledge and discuss appropriate control measures for CSF in the near future. 	
Terrestrial		Australia	CSIRO Australian Centre for Disease Preparedness	trevor.drew@csiro.au	No information					
Terrestrial	Cysticercosis	China	Helminthosis Laboratory	luoxuenong@caas.cn	<ul style="list-style-type: none"> Positive serum from swine cysticercosis and DNA sample of tapeworms 	<ul style="list-style-type: none"> Serum antibody testing ELISA based on recombinant 18kd antigen, and differential diagnoses techniques between three human tapeworms that have been established by microscope and PCR or multi-PCR. 	Yes
