Progression to next PCP stage during the sixth phase of SEACFMD Campaign

Facilitator: Dr Ashish Sutar

How Public-Private- Partnership can support FMD Prevention and Control?

Facilitator: Dr Jacqueline and Dr Yuni

Steps for Group Work

- Discussion to be focused on the key questions for each group
- Group work/ discussion for 45 Minutes
- Each Group to assign **ONE** Rapporteur who will record discussion capture group responses directly over PPT slide. (the template is provided)
- Rapporteur shall participate during the Panel discussion (15 Minutes) .

Group 2 Progression to next PCP stage during the sixth phase of SEACFMD Campaign

- Participants: Cambodia, Laos, Myanmar, Vietnam, Pirbright, Pakchong, FAO
- Key Questions
 - What is the current state of play? (status of existing collaboration, strength, weakness etc),
 - What are the opportunities?
 - What are the current challenges?
 - What are the solutions to address these challenges?

Task 1: Target

Country/PCP	2021	2022	2023	2024	2025
Myanmar	2	2	2	2	3
Lao PDR	2	2	2	2	2
Vietnam	3	3	3	3	4
Cambodia	1	1	1	1	2

Note:

- Purpose PCP future
- Discussion with the team later/that can be change later
- Previously targets consideration: political process, evaluation process

Task 2: Key Strategies

- **Myanmar:** National plan; Control Zoning plan and implementation (Surveillance, Data, awareness, communication,..) 40 Division, 35 District-
- **Lao PDR:** Planning, Data collection (Regional reporting), Vaccination, RBSP implementation, Donor; (ADB project)
- **Vietnam:** Vaccination, PVM, Funding, Buffer Zone/ High risk at the bordering country/ Government Funding; Access to vaccines- BI, Domestic company and Argentina), Biosecurity and Biosafety farm did not use vaccine, Government support domestic farm. Prime Minister decree (legal mechanism in place) for national FMD control plan.
- **Cambodia:** Improve epidemiological data collection, National Reporting system, (ADB; Lab capacity, LIMS), Develop Risk Based Strategic Plan (RBSP) plan to move to PCP stage 3.

Task3: Identify Challenges

- **Myanmar**: Access to Quality Vaccine, Not enough vaccine, Budget for sus
- **Lao PDR**: Budget(Not enough Vaccine, Less HR (Experient and Staffing problem, Limitation of position about approval)
- **Vietnam**: New FMDV strain changing relate Illegal movement, not operation cost of vaccine), Not coverage vaccine in the country,
- **Cambodia**: Not enough vaccine, HR (Related Government), Budget, New staff by contract only,

Address the challenges

- **Myanmar**: Collaboration with PPP, Production of vaccine could be support from partner
- **Lao PDR**: Related with Budget(PPP), Explore to collaborating private company, Training for village level,
- **Vietnam**: Capacity training, New strain differentiate information, Vaccination Plan at the high- risk vaccination (Pig, Cattle, Buffalo); Twice per year,
- **Cambodia**: RBSP plan; International to develop and improve

Take note: Motivation and Driver amongst VS and policy makers to move or maintain the PCP status

Thank You
