

Annex 2: Regional and Sub-regional operational workplan for 2023-2024

Objective 1		Establish strategies for priority TADs at the Regional and Sub-Regional level									
Expected Product/Result		<ol style="list-style-type: none"> 1. TADs prioritization facilitated/coordinated 2. Regional and sub-regional TADs control strategies are formulated in alignment with global and regional strategies 3. Mechanisms for harmonization/coordinated planning established 									
Activities		2023				2024				Lead organization or applicant partner	
		Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4		
Region	Regional GF-TADs Steering Committee Meeting	○						○			
	Development of Regional Strategy and workplan	○									
	Update guidelines on ASF management in high biosecurity settings			○						Consultancy	
	Review of control strategies for ASF including compensation mechanism			○							
	Review of the Global GF-TADs Avian Influenza Strategy						○				
	Development of new Avian Influenza Global Strategy							○			
	Launch Meeting on Avian Influenza Global Strategy								○		
	AP-Net Aqua Steering Committee Meeting (Regional Collaboration Framework)			○						○	
Confirmation of priority diseases	○										
East Asia	Sub-Regional GF-TADs Meeting (East Asia CVO Forum)			○							
	CVO forum for 3 countries (Japan, Ro Korea, China)							○			
	Confirmation of priority diseases			○							
Pacific	Sub-Regional GF-TADs Meeting (PHOVAPS)	○				○					
	Sub-regional risk pathway		○								
	Emergency Preparedness and Response Program		○								
	Animal Health Surveillance	○	○	○			○		○	SPC-DAFF-DFAT-NZMPI	
	Training and awareness – ASF										
	Biosecurity and Border		○		○		○		○		
	Veterinary Legislation		○	○	○	○	○	○	○		
South Asia	Sub-Regional GF-TADs Meeting (SAARC CVO)				○		○				

	Gangetic plain across border meeting, SAARC			○						
	Rabies Workshop, SAARC			○						
	AMU meetings, SAARC					○	○	○	○	
Southeast Asia	Sub-Regional GF-TADs Meeting (ASWGL)		○				○			
	SEACFMD Sub-Commission Meeting									
	Development of ASEAN ASF Control Strategy	○	○	○	○	○	○			WOAH, FAO, WCS, HCU, ADCP, ILRI
	Development of ASEAN Peste de Petits Ruminants (PPR) Control Strategy	○	○	○	○					WOAH, FAO, WCS
	Development of ASEAN General Guidelines on Animal Welfare: Pig Production System	○	○	○	○					WOAH, FAO, ILRI
	Protocol for Establishing a Network of Animal Vaccine Testing Reference Laboratories within ASEAN	○	○	○	○	○				WOAH
	Development of a Regional Framework for Avian Influenza Control in ASEAN Post 2022				○	○	○	○	○	WOAH, FAO

Objective 2	Develop and strengthen capacities to prevent and control TADs									
Expected Product/Result	<ol style="list-style-type: none"> 1. Capacity gaps are identified and priorities for capacity building are addressed 2. Strengthening capacity of laboratory and epidemiology for prevention and control of TADs 3. Multi-disciplinary planning for the prevention and control of priority TADs is strengthened 4. Providing harmonized mechanisms/tools to monitor the control of priority TADs 									
Activities		2023				2024				Lead organization or applicant partner
		Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	
Region	Regional Workshop on LSD				○				○	
	Support to Regional Laboratory PT Programme including LSD				○					
	Development of LSD Vaccination Guidelines				○					
	SGE-ASF Meeting		○		○		○		○	
	Regional training workshop on swine disease control in collaboration with CADC			○				○		
	Establish regional swine disease laboratory network, including WOAHA Reference Lab and national diagnosis lab in the region			○						
	Pilot M&E for Global initiatives in Asia		○							
	Regional Database on avian disease surveillance		○							
	Regional expert network meeting on avian diseases			○				○		
	Regional Workshop on Avian diseases		○				○			
	Training on PPR diagnosis for selected members					○				
	Regional Workshop for equine diseases including Glanders			○						
	Workshop for Equine Disease-Free Zone (pre- and post-Olympic game events) together with equine emergency disease preparedness		○							
	Vector surveillance expert meeting			○						
	Regional Vector-borne disease workshop					○				

	Meeting for on-site rapid diagnosis techniques for key tropical and sub-tropical vector-borne diseases and the application							○		
	Regional workshop on honeybee disease control			○						
	AP-Net Aqua: Workshop for preparedness and response for aquatic animal diseases				○				○	
	Focal Point Seminar for Aquatic Animals			○						
	Regional Workshop on emerging disease preparedness in collaboration with CAHEC								○	
	WOAH Reference Center Meeting									
	PT provider training									
	Proficiency test for avian and swine diseases									
	Training course “Strengthening Basic Skills for Diagnosis and Surveillance of Livestock Infectious Disease”		○	○						JICA
	Training course “Capacity Development of Laboratory Tests and Research for Zoonosis Control”					○				JICA
East Asia	Information sharing taking advantages of existing meetings		○	○						Aqua: RO Korea, June 2023 HPAI: China, August 2023
	Project for strengthening the practical capacity of public and private veterinarian in Mongolia (2020-2025)	○	○	○	○	○	○	○	○	JICA
Pacific	Pacific subregional laboratory network		○							
South Asia	Workshop for development of national plans for PPR eradication		○							
	LDF meeting, SAARC				○					
	Epinet meeting, SAARC				○					
	Lab twining AI, Pakistan					○	○	○	○	
	AMR TAG, SAARC				○					
	Rabies Diagnosis training, SAARC								○	
	Development of greenhouse gas emission inventory, SAARC						○			
	Regional database disease surveillance		○							
	Training on PPR diagnosis for selected members					○				WOAH

Objective 3	Improve the sustainability of priority TADs strategies through multi-disciplinary partnerships									
Expected Product/Result	<ol style="list-style-type: none"> 1. Strengthen engagement and coordination with relevant stakeholders, including the private sector 2. Strengthening coordination amongst FAO and WOAHP at the global level and at the regional level 3. Improve policy dialogue to advocate the TADs control for Members 4. Promote Sustainable funding mechanisms 									
Activities		2023				2024				Lead organization or applicant partner
		Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	
Region	Review of Compensation Mechanism for ASF									
	Consultancy to support Equine activities in Asia and the Pacific Region	○								
	International Horse Movement facilitation				○				○	
	AP-Net Aqua: Workshop on aquaculture biosecurity in small scale farms			○						
	AP-Net Aqua: Workshop on AMR/AMU in aquaculture			○						
	Inter-regional forum on zoning			○						
	Workshop for disease reporting, disease status and self-declaration			○						
East Asia	Workshop for sharing experiences on disease control at interface on wildlife and livestock							○		
	Information dissemination on border control targeting to tourists and public	○	○	○	○	○	○	○	○	Relevant stakeholders
Pacific										
South Asia										
Southeast Asia	SEACFMD Private Sector Consultative Meeting		○
