What did you get from yesterday?

Food and Agriculture Organization of the United Nations
World Health Organization
World Organisation for Animal Health
Founded as OIE
Funded by the European Union

Task 1: Review Thailand national AMR surveillance program in livestock

1.1. What are your opinions and observations (Pro/Con) for the previous NAS?

1.2. Tell us about the previous NAS!!

1.1: Overview pictures of NAS

Objective:

- Make it clearer and well define
- Provide adjustments to all in NAS network

Limited collaboration and communication among lab network

Limited accessibility of NAS database

Unidentified stakeholders for application

Inefficient ICT

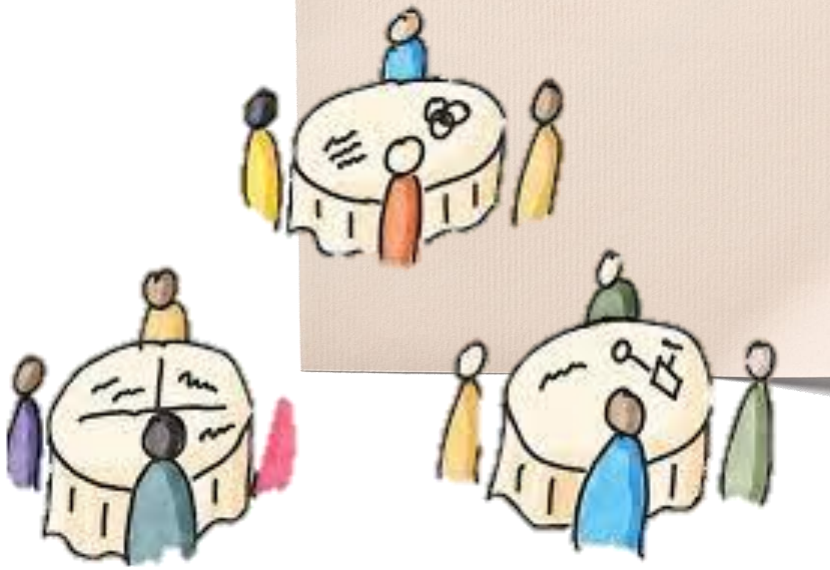
Unclear role of epidemiological unit

Good sustainability- Financial and technical support

1.2. Applications of previous NAS data

Limited use of the NAS data at multiple stakeholders.

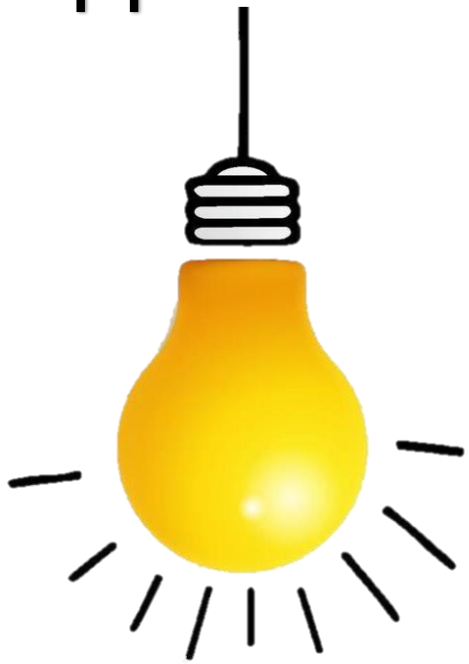
- Lack of awareness about the existence of NAS data



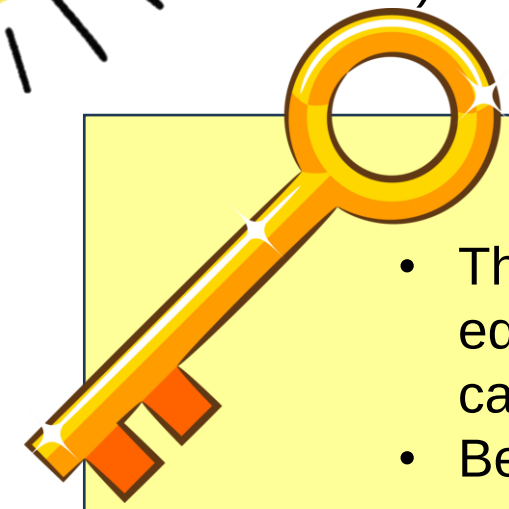
- Do not well perceive about the application and benefits of NAS data
- Lack plan and communication about the application of NAS data

DLD to increase application and communication

- Regularly report the NAS data and share.
- Develop Dashboard specific for AMR
- Analyze and prepare infographic for distribution
- Highlight the link between AMU in animals to human health



- Regular meeting with relevant stakeholders
- Better use social media
- e.g., TV, online applications (Tik Tok), broadcast radio etc.)



- Thailand Nas is fully equipped either capacity or capability.
- Better use the existing and available resources
