Good practices on import requirements

**DR. CONNIE JOYCE TANN
(MVC No. 913)**

**VETERINARY HEALTH SECTION,
DEPARTMENT OF VETERINARY SERVICES SABAH,
MALAYSIA**

**Workshop to Strengthen Capacities of Veterinary Services to Facilitate Safer International Trade
12 to 14 December 2023 Bangkok, Thailand**

Topic

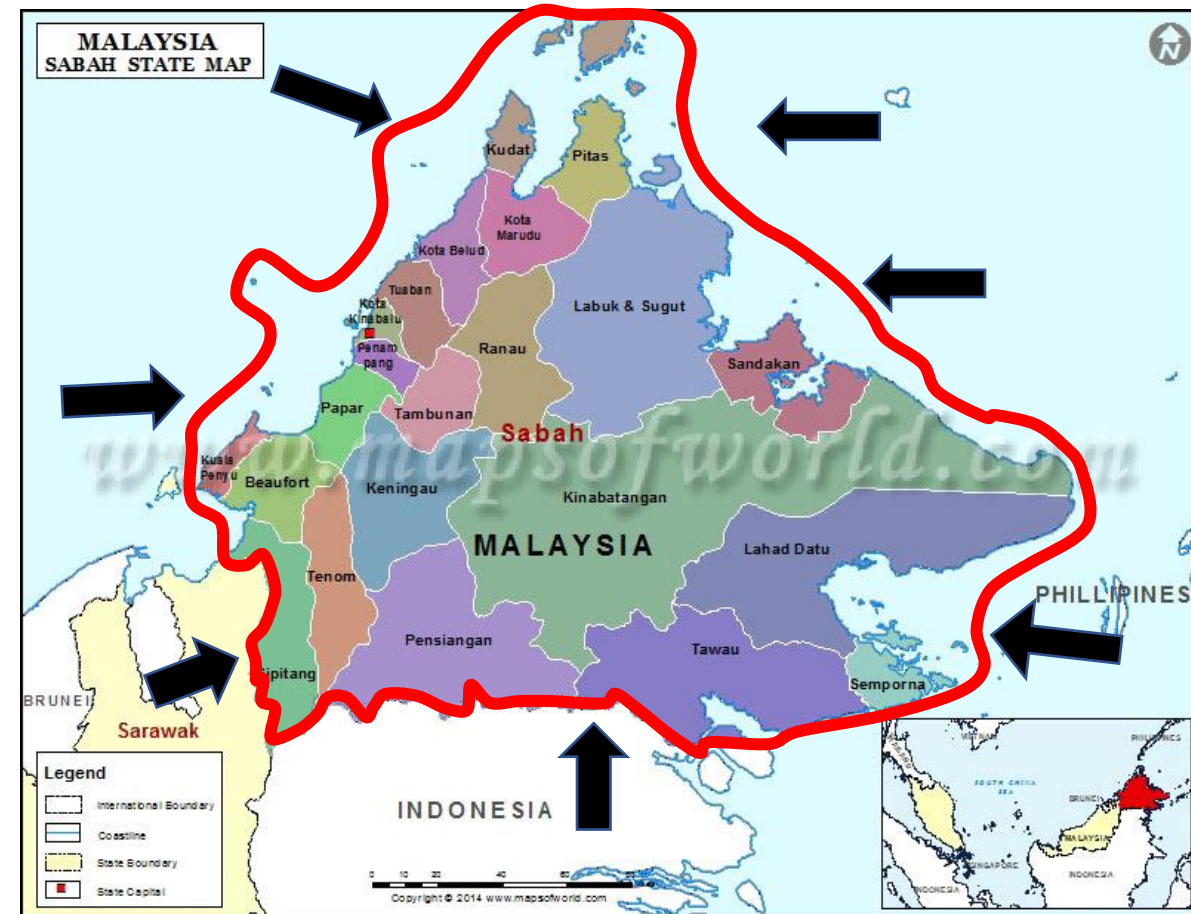

• Background

- Land area : 73,904 km²
- Human Population (2020)
 - 3,418,785 people
 - Density: 46/km² (120/sq mi)
- Bordering state(s) & Countries :-
 - Sarawak
 - Peninsular Malaysia
 - Indonesia
 - Philippines
 - Vietnam
- Legal Entry points:
 - Land- 2 (Sindumin, Tawau (Kalabakan))
 - Sea- 6 (Menumbok, KK (2), Kudat, Sandakan, Tawau)
 - Air- 3 (KK, Sandakan, Tawau)

Disease Freedom:

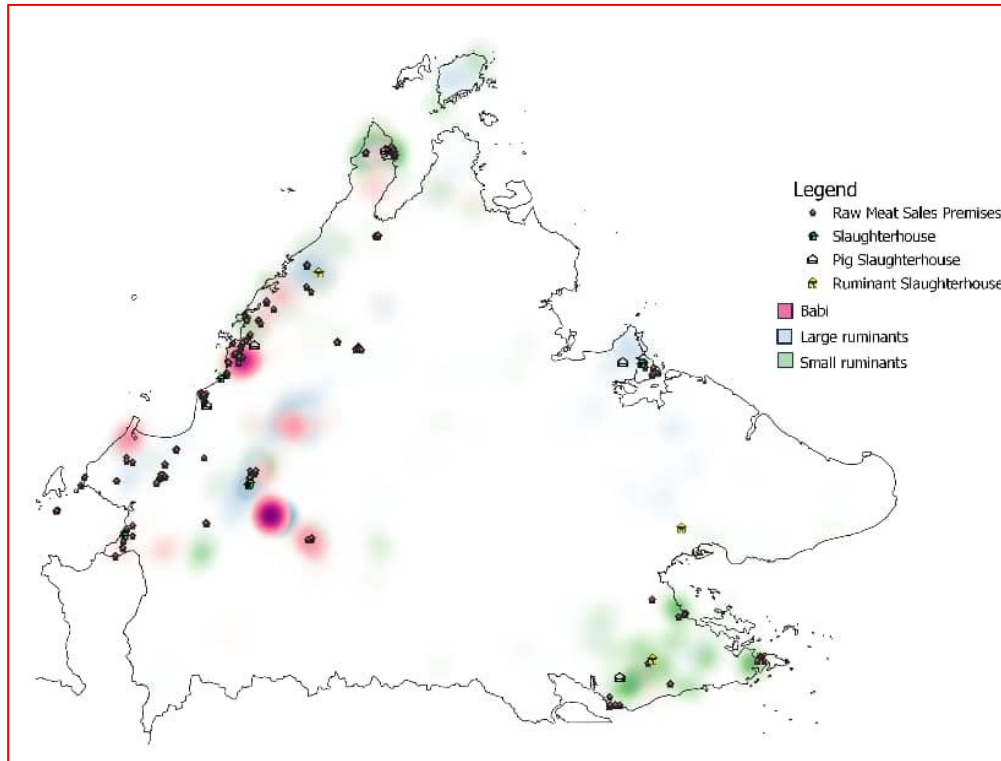

- FMD (2004)
- Rabies (1881)
- HPAI (2018)
- ASF (last reported case Aug 2022)

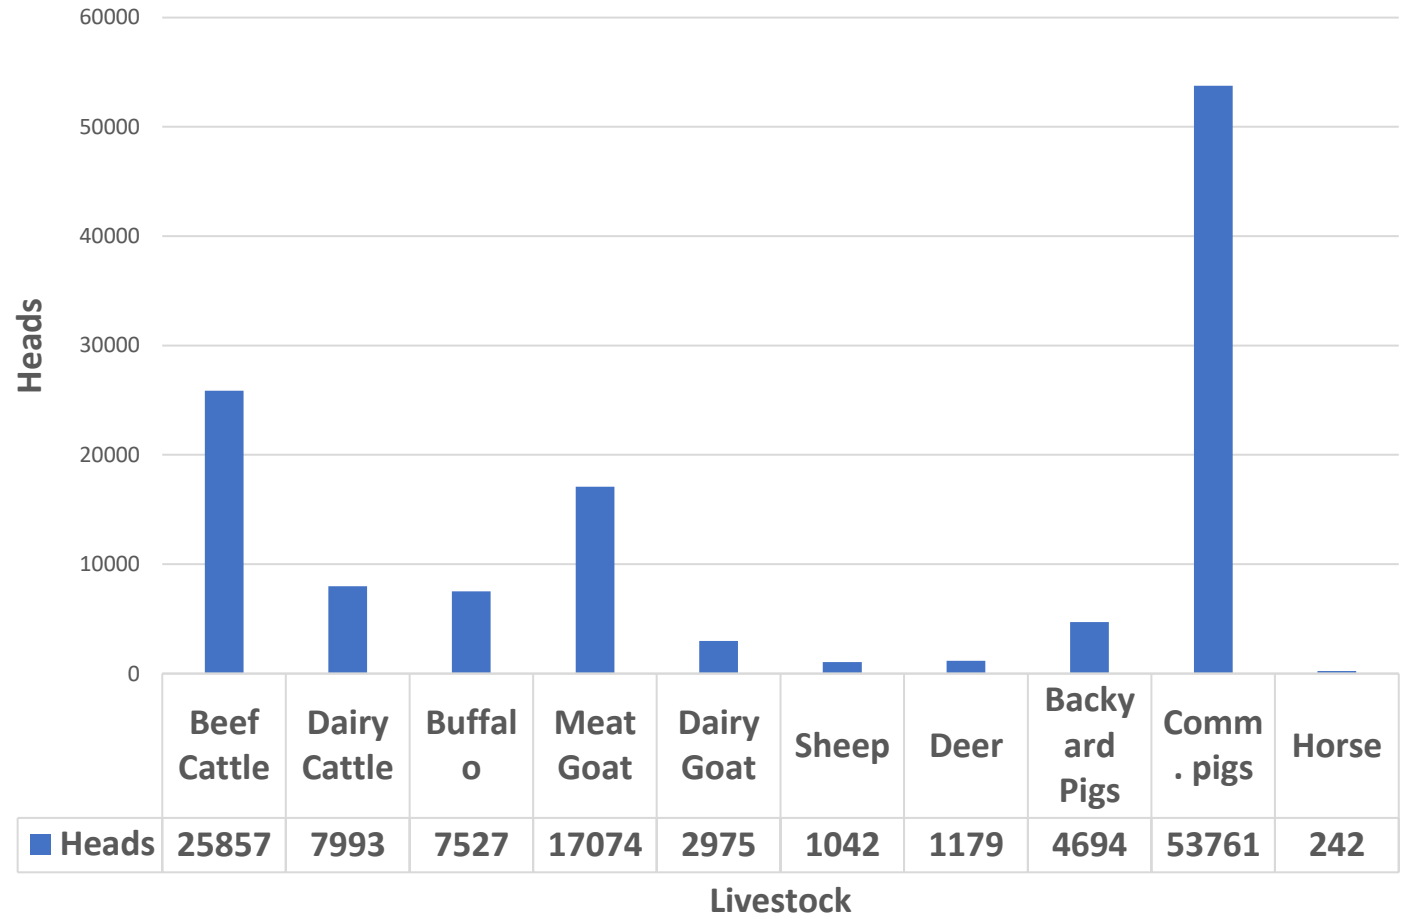

• Background

Livestock Population As of June 2023

Livestock Populations as of June 2023

Total livestock population : 122,344 heads

• Background

Region	Slaughter houses:			Market/ Retail	Entry points (*inc. unofficial entry point)			Trading point
	Ruminant	Pigs	Poultry		Land	Sea/ River	air	
Beaufort	2	1	5	137	1 + 7*	2 + 7*	0	3

Vision:

To be a leading agency in the transformation of services and a dynamic livestock industry.

Mission:

Provide professional and innovative veterinary services and livestock management to the livestock industry to guarantee the production of quality and safe food.

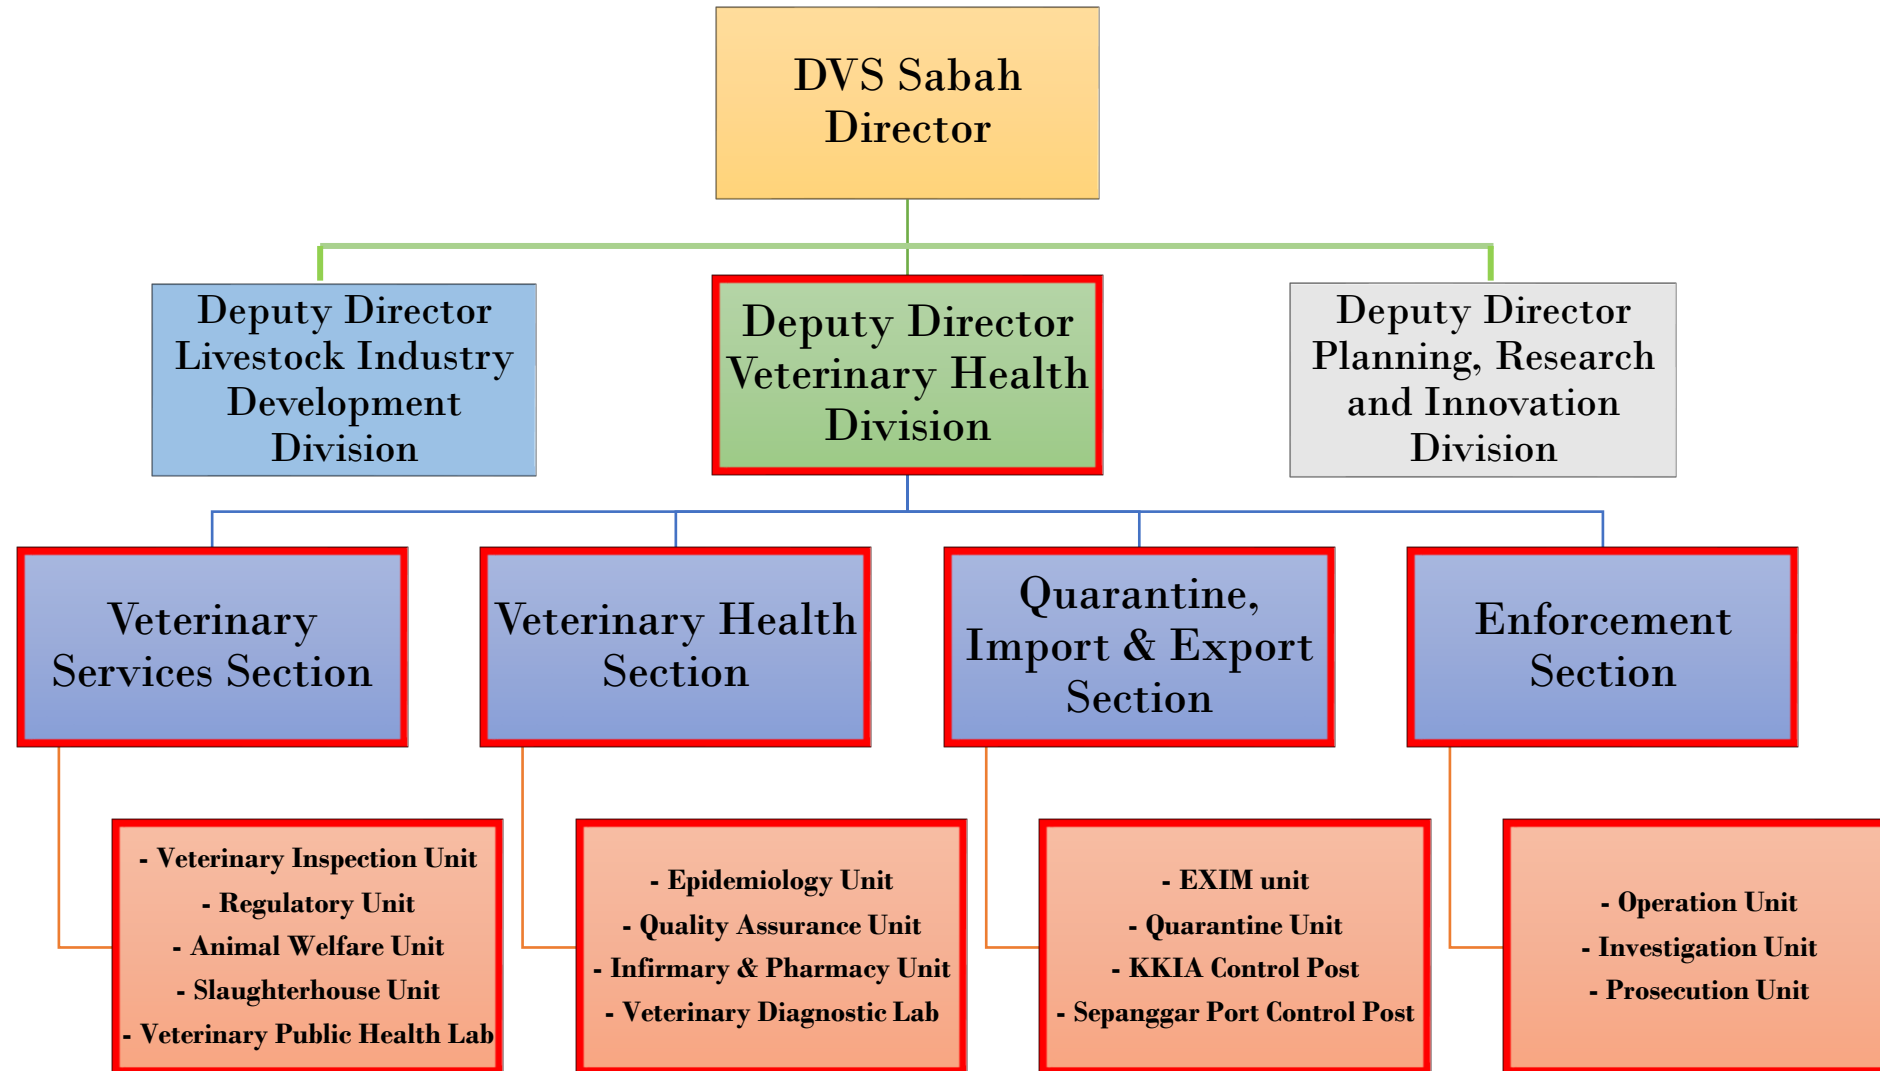

Function:

- Production of livestock, livestock products and livestock feed.
- Control, prevention and elimination of animal diseases, quarantine and research.
- Doubling of training for the livestock industry.
- Control of import and export of livestock and livestock products.
- Inspection of meat, milk, eggs and control of slaughterhouses.
- Development of livestock production and health.

• Roles and responsibilities for imports of animals and animal products

 Tarikh: 19 Mei 2022

Semua Timbalan Pengarah,
 Ketua Penolong Pengarah Kanan,
 Penolong Pengarah Kanan,
 Penolong Pengarah Wilayah,
 Pegawai Penguasa DVS Daerah, dan
 Pengurus-Pengurus Ladang,
 Jabatan Perkhidmatan Veterinar, Sabah.

Tuan/Puan, PEMERIKSAAN DAN PENGGUNAAN SJIL PERGERAKAN TERNAKAN ANTARA DAERAH

Dengan segala hormatnya, saya menjuk perkara tersebut di atas.

02. Untuk makluman tuan/puan, susulan laporan wabak penyakit kuku dan mulut (FMD) yang berlaku di negara jiran, disamping langkah kawalan beberapa penyakit berkepentingan ekonomi yang lain seperti African Swine Fever (ASF) dan High Pathogenic Avian Influenza (HPAI), pihak pengurusan jabatan telah mengambil langkah drastik untuk mewajibkan semua pejabat veterinar daerah/wilayah agar menjalankan pemeriksaan rapi keadaan kesihatan semua jenis ternakan yang hendak dibawa keluar ke daerah lain dalam Negeri Sabah.

03. Disamping itu, pejabat DVS daerah/wilayah dan ladang juga diwajibkan menggunakan borang/sijil pergerakan bagi merekod serta mengawal pemindahan semua jenis ternakan/unggas yang hendak dibawa keluar ke daerah lain. Selain itu status kesihatan ternakan hendaklah dinyatakan dengan jelas dalam sijil tersebut. Bersama ini dilampirkan salinan Borang dan Sijil Pergerakan Ternakan untuk rujukan dan tindakan tuan/puan selanjutnya.

Sekian dan harap maklum.

Terima kasih.

"BERKHIDMAT UNTUK NEGARA"

Saya yang menjalankan amanah

Import & Export Licence Application Procedures

- Process model for imports (i.e., SPS requests, prioritisation, risk analysis, standards, permits, clearance process)

1.0 SOURCE OF POWER

The Animal Enactment 2015 is a guide used by the Sabah Department of Veterinary Services (DVS) to regulate and monitor the import and export (EXIM) activities of animals, animal products and veterinary biological substances.

2.0 DEFINITION

2.1 IMPORT

To bring or cause to be brought any animal, bird, animal product, bird product, carcass, dung or any article or substance into Sabah by land, sea or air.

2.2 EXPORT

To take or cause to be taken out of Sabah by land, sea or air or to any place any animal, bird, animal product, bird product, carcass, dung or any article or substance in a conveyance for the purpose of the animal, bird, animal product, bird product, carcass, dung or any article or substance being taken out of Sabah by land, sea or air.

3.0 EXIM CLIENT CHARTER

3.1 Import Approval Application (First-timer)

Process of applications for live animals, animal products and veterinary biological substances within **3 to 6 weeks** of working days (refer flowchart 4.1).

3.2 User Registration

Process of user registration in Sabah Veterinary Data Portal (DAVETSA) within **1 to 3 working days** [refer flowchart 4.2 (a)].

3.3 License Application

Process applications for live animals, animal products or veterinary biologic within **5 working days** if all the relevant documents are complete [refer flowchart 4.2(b)].

4.0 LICENSE APPLICATION PROCEDURE

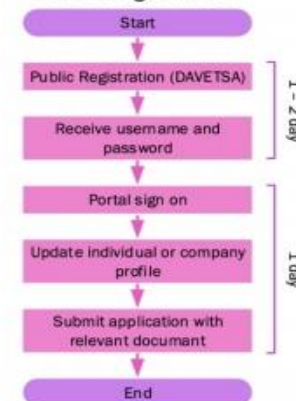

(www.davetsa.sabah.gov.my)

4.1. Import Approval Application (First-timer)

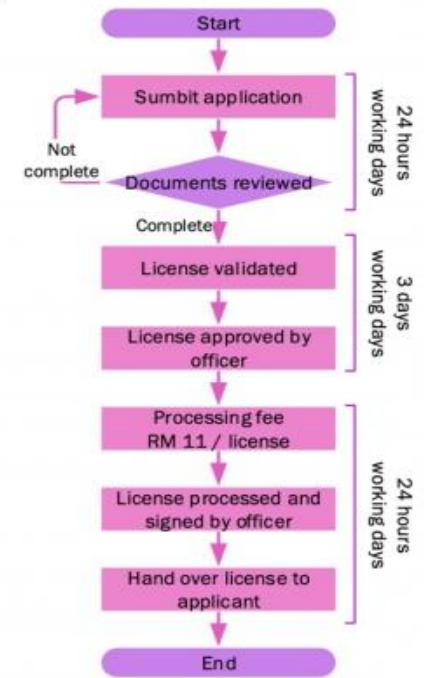

4.2 (a)

User Registration

4.2 (b)

License Application

5.0 GENERAL CONDITIONS

Import License

- License valid for 2 months after approval
- Veterinary Health Certificate (validity 1 week)
- Laboratory test report (validity 3 months to 2 years depending on the type of animal(s) or product(s)).
- Meet the import requirements (refer to DVS Sabah official website)
- Veterinary biologic can be applied by registered veterinary surgeon, pharmacists, dentists or medical practitioners under the Poisons Act 1952
- Estimated of arrival of animal(s) or product(s), should be reported to the vat authority.

• Process model for imports (i.e., SPS requests, prioritisation, risk analysis, standards, permits, clearance process)

- Veterinary authority inspection shall take place either at the arrival points or such other place as he may point.

Export License

- Veterinary Health Certificate (validity 1 week)
- License valid for 2 months after approval

Additional conditions :

- Approved license is only valid for 1 consignment use only
- Applicant must comply with all conditions including the additional conditions attach with approved license
- Applicant or agent must comply with the requirements of the Animal Enactment 2015 while handling the transport of live animal conveyance from delivery until reach the destination

6.0 FINES / PENALTIES OF IMPORT AND EXPORT WITHOUT LICENSE (ANIMAL ENACTMENT 2015)

- For veterinary biologics will be liable to a fine not exceeding **twenty thousand ringgit** or to imprisonment for a term not exceeding **one year** or to both.
- For any animal, bird, etc. will be liable to a fine of not exceeding **fifty thousand ringgit** or to imprisonment for a term not exceeding **two year** or to both.

<https://exim.davetsa.sabah.gov.my/login>

Summary

- **Good practices on import requirements will prevent the incursion of economics and zoonotic importance diseases; thus will ensure disease free status to be maintained in Sabah**
- **A good systematic traceability is important for back and forward tracing of animal and animal products movements- esp during disease outbreak in neighboring origins.**

Thank you
