Exports of animals, animal products and food

**Martin M Paina (Mr)
&
Cassandra Peni (Ms)**

**Workshop to Strengthen Capacities of Veterinary Services to Facilitate Safer International Trade
12 to 14 December 2023 Bangkok, Thailand**

Presentation Outline

1. Background

2. Export negotiations: roles and responsibilities, current priorities.

3. Government Veterinary Services focus areas: animal health, food safety and official certification assurances process.

4. Export volumes, values and destinations

5. Summary

Background

- ❑ **Papua New Guinea is 80% subsistence-based agriculture. Livestock is reared predominantly for cultural purposes.**
- ❑ **Efforts in Agriculture commercialization: World Bank support in export crops. Currently into livestock (pig production value chain) study.**
- ❑ **Commercial farms, cattle, (Dairy and beef) for domestic consumption only. Crocodile mainly for skin export to Australia (historically France & Hongkong) as well as meat as delicacy.**
- ❑ **Major export: Fish and sea food products predominantly tuna spp**
- ❑ **Effort into improving and building capacity: Policy and Legislation to improved standards aspiring to farm to plate value chain process adopting WTO/WOAH/Codes Alimentarius to local situation at the domestic front.**
- ❑ **Import a lot of animal products: beef, lamb, pork, poultry, milk and dairy products (mainly powder/processed) . Import exclusively mainly: Australia and New Zealand.**
- ❑ **Manpower and Technical capacity: As per WOAHPVS 2015 and 2019 Recommendation Veterinary, paravet professional and Biosecurity manpower capacity is ongoing**
- ❑ **Trade Agreements: Bases on Bilateral relationships with countries.**

Background: Main key National Policies

Cont'd

- 1. Long term 50-year national strategy: VISION 2050 (By 2050 Healthy, Wealthy & Wise nation!)**
- 2. MTDP-3 & MTDP-4**
- 3. Sector policies**

These are frame work as road map to set national goals.

Improve enabling Legislation and enhanced by well defined policy.

This policy replaces the Papua New Guinea National Food Security Policy (NFSP) 2000-2010. The policy sets the medium to long-term direction and signals priority areas

PNG National Biosecurity Policy (Biosecurity Bill pending...)

Facilitate into agriculture commercialization policy: transform to export driven Agriculture sector

Export negotiations: roles and responsibilities, current priorities

Papua New Guinea has trading partnership with;

- Bilateral Investment Treaties (BITs) are with;
- Australia, China, Germany, Japan, Malaysia, and the United Kingdom.
- PNG-EU Economic Partnership Agreement for duty/quota free access for PNG's selected products like fish, coffee, and other agriculture products
- Free trade agreement (FTA) with the countries of the Melanesian Spearhead Group (MSG): Solomon Islands, Vanuatu, and Fiji.

- Priority: To improve and sustain these markets as especially the EU partnership**
- Roles and responsibility here example: National Fisheries Authority (NFA), NAQIA and Dept International Trade and Investment.**

Government Veterinary Services focus areas:

Export certification is core function of Veterinary Authority of PNG

Meat processing facility and abattoir both also overlaps to Health Authority. Food sanitation and safe food requires stringent policy and improve legislation and standards.

One Health –Focus gearing up from ground zero.

Experience of Covid19 lesson: not to be taken lightly.

AMR National Action Plan Launched 2019-2023.

Sectoral partners: Health, Environment, Agriculture Fisher sector and NAQIA as

Veterinary Authority is core part of this.

Food safety and zoonis diseases/pandemic now establishing platform (FAO). Export certification as per SPS requirement.

More stringent border management remains critical given experince with ASF outbreak in 2020. Control efforts ongoing .

Focus on key transboundry diseases on going with surveillance and awreness: FMD, LSD, ASF and vv IBD

2020 EXPORTS

ANIMAL PRODUCTS	QUANTITY (KG)	VALUE (PNG KINA)
Crocodile Products	17,914	PGK 343,350.05

Animal and Animal product imports

Animal Products	
Frozen Beef	
Frozen Lamb	
Frozen Pork	
Frozen Fish	
Frozen Poultry	
Stockfeed	

-  Frozen Beef
-  Frozen Lamb
-  Frozen Pork
-  Frozen Fish
-  Frozen Poultry
-  Stockfeed

Import Figures for Goods of Animal Origin

Summary

**Papua New Guinea- Subsistence based agri/farming system.
Efforts to transform to commercialization is now purcued.
Not much farm livestock exports. But imports are high.**

Fish and seafood dominate export.

Improve policy and legislation efforts in progress. Alignment to National goals and aspirations

To create standard as leeway to facilitate safe international trade.

Ongoing technical capacity in manpower including diagnostic Laboratory capacity etc

Thank you!
