#### **ASF National Simulation Exercises**

## **Community Engagement**

- Cambodia is on the Community ASF Bio-security Interventions (CABI) project beneficiary country
  - Two provinces have been selected for pilot study.
  - The LoA of CABI project will be singed between AVSF and FAO this year.

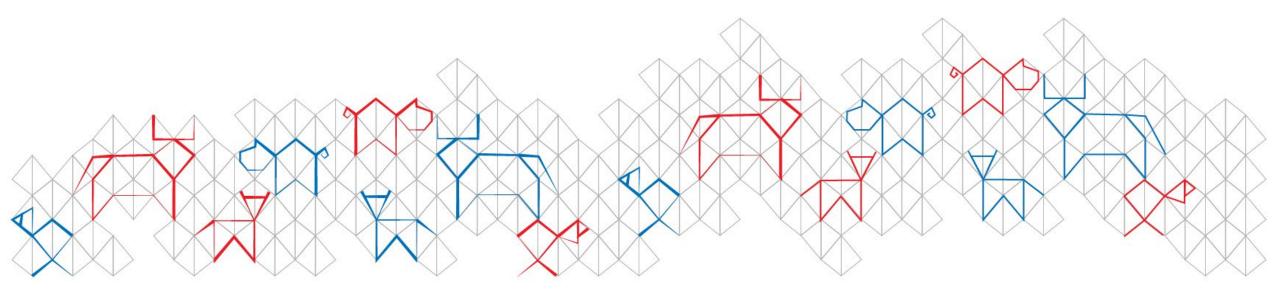

## **Summary and Recommendations**

- ASF was first outbreak in Cambodia 2019 affected 5 provinces.
- Movement of animal, animal product and poor bio-security practices were more likely caused of ASF spread.
- Selection targeted audiences for joining risk communication based on TOR.
- IEC materials used fix with type of the audiences via direct and in-direct way delivery.
- ASF community forum and sub-national training should be implemented across the country (10 provinces more).
- IEC material should be updated fit with the current situation of ASFv.

# **Thank You**
