History of onset ASF

- Not cleared history but guess it has reported early October 2024 in western province of Sri Lanka and further spreads other areas.
- Officially **announced** its **ASF by Sri Lankan Government**, Affected 130 pig herds/farms and **Wild boars outside and inside PAs**.
- Case origin is also Unknown.??
- First **Wild** case reported in UVA region (Yala NP) on **15 October 2024**
- Majority of the Wild samples sending as long bones.
- Reported as **+Ve** for both PRRS and ASF by a **Realtime PCR**.@ VRI Kandy through VIC Monaragala.

Death of Wild bores

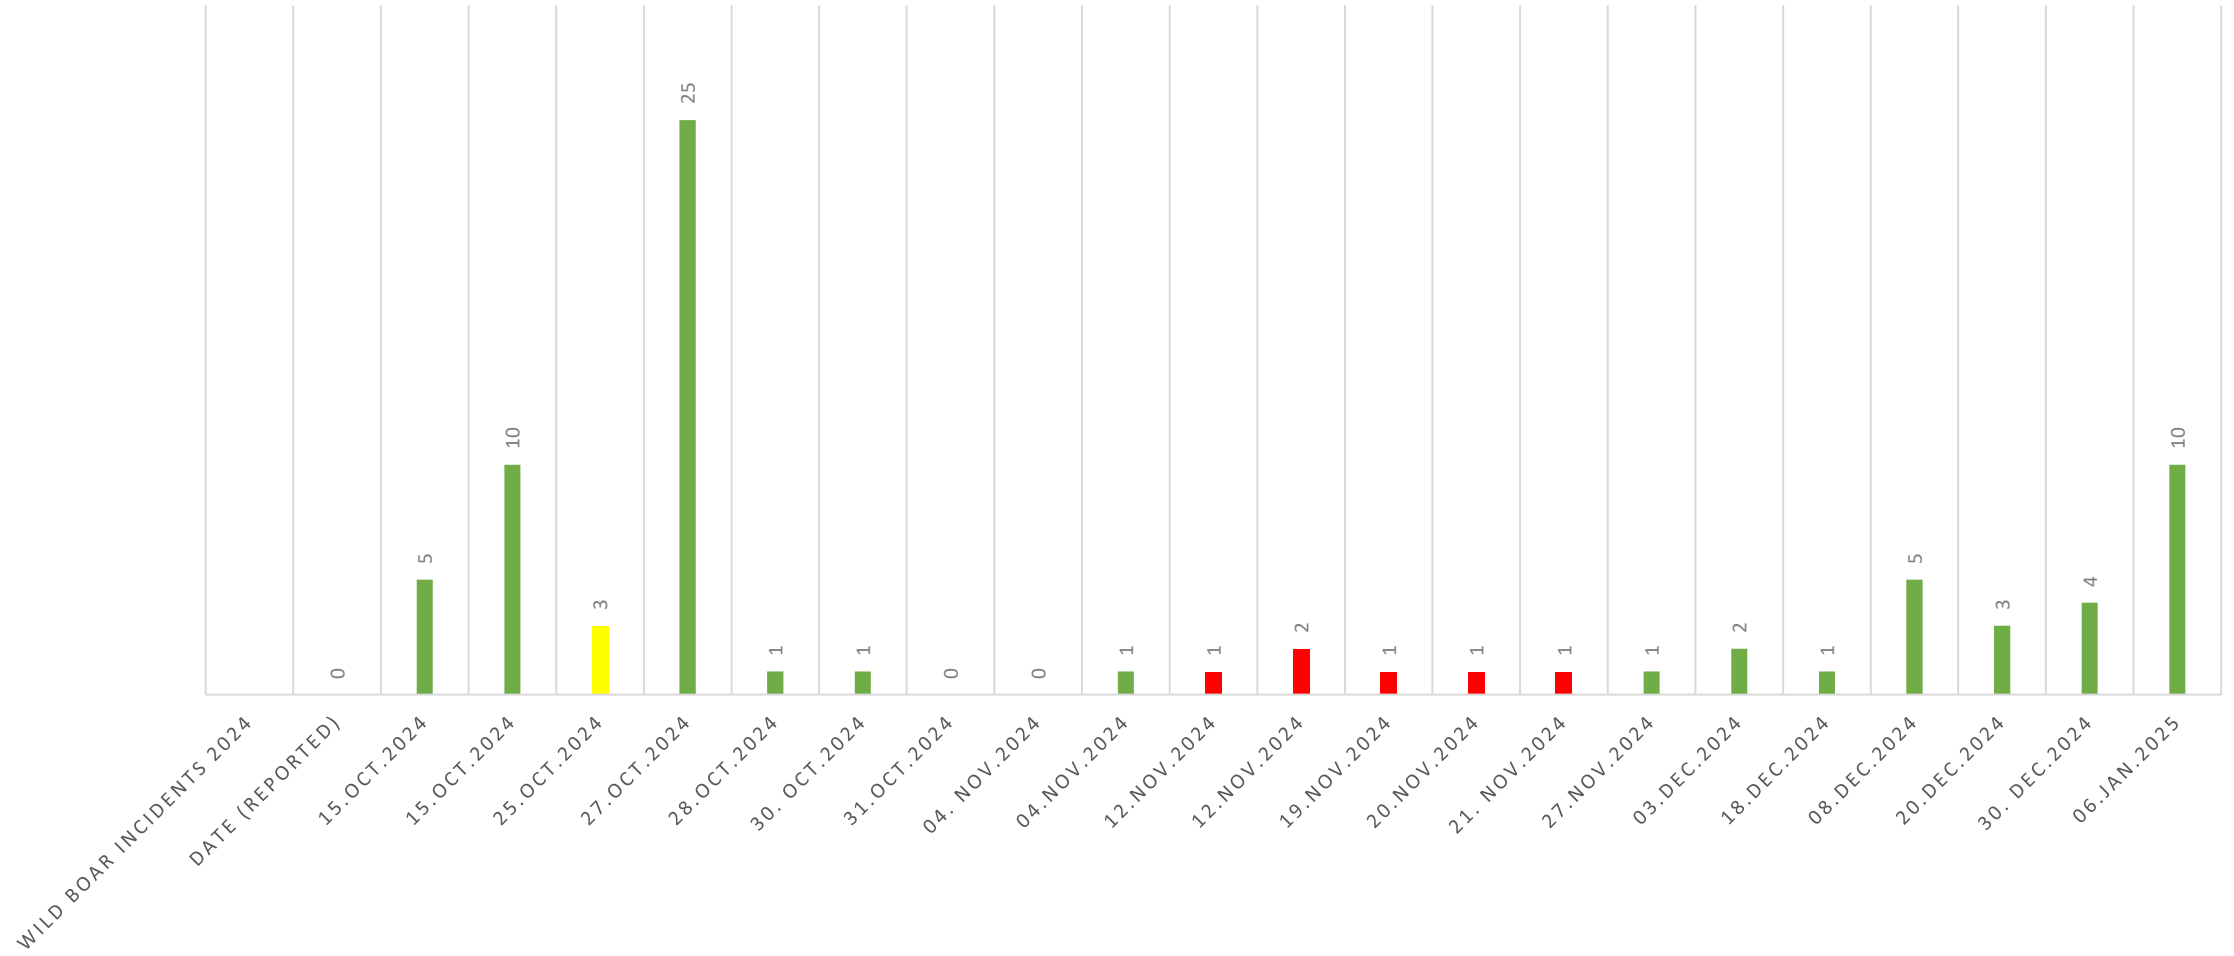

Collection of Data by DWC,

- introducing hot line 1992, and WhatsApp.
- Two localities of PAS reported near the Park bungalows.
- Banding caring uncooked pork products to National Parks by all public & staff.
- Officials and Public Reported [data recorded](#) daily
- Requested to carcass disposal method when reported out side the PAS from authorities of Local government prevents further spreads.
