

International Rabies Taskforce Projects in South East Asia

Dr Amy Nicole Lewis

International Projects Manager

Worldwide Veterinary Service and Mission Rabies

WVVS
WORLDWIDE VETERINARY SERVICE

**INTERNATIONAL
RABIES TASKFORCE**

WVS
WORLDWIDE VETERINARY SERVICE

- UK-Based NGO, est 2003
- Veterinary aid through equipment and aid parcels, staff provision and vet surgical training.
- WVS Academy Platform
- Mission Rabies project
 - Running proof-of-concept projects in rabies hotspots globally

**INTERNATIONAL
RABIES TASKFORCE**

Collaboration between:

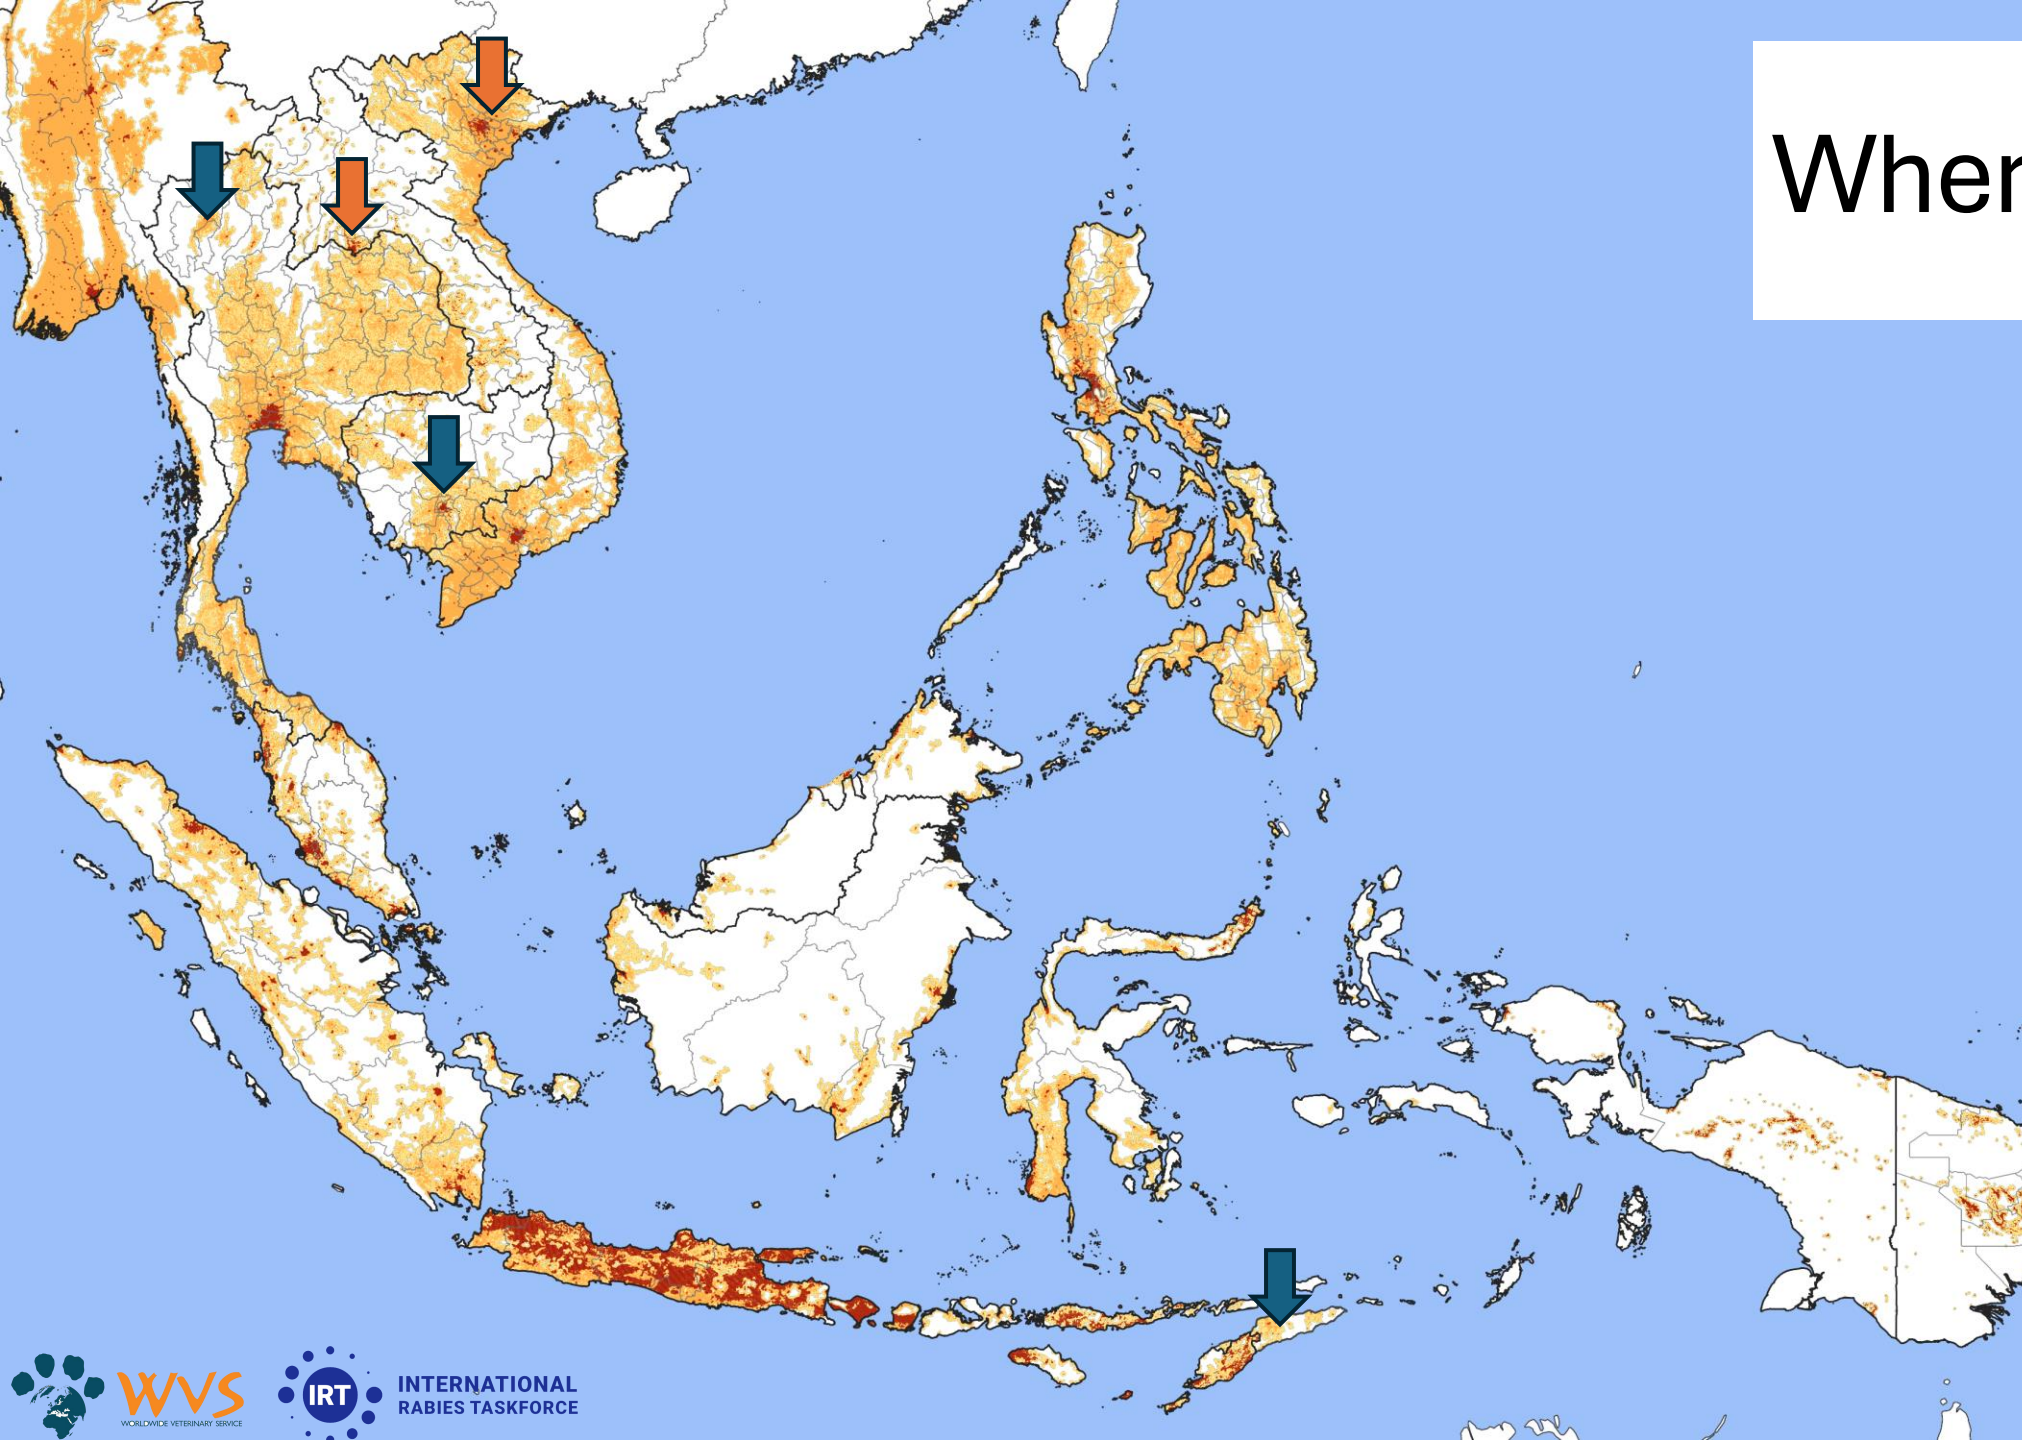

- Mission Rabies
- MSD Animal Health
- US Centers for Disease Control and Prevention

Objective is to provide a practical toolset and training support at government level in supporting canine transmitted rabies elimination projects

Where we work

(In SEA)

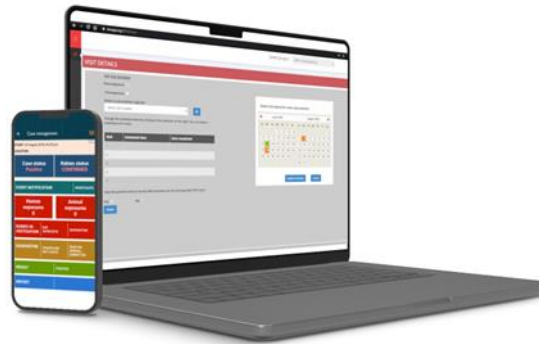

- ↓ Current Projects
- ↓ Future and Tool-provision Projects

The tools we work with

WVS Data Collection App
(WVS)

Rabies Exposure Assessment
and Contact Tracing (REACT)

The Settlement Type and Road
Connectivity (STARC) Mapping

API with Silab and VAHIS

More tools and information can be found at rabiestaskforce.com/toolkit

The tools we work with

VaxPlan

Provides insight into the potential outcomes of MDV interventions based on dog population characteristics

The Global Dog Rabies Elimination Pathway (GDREP)

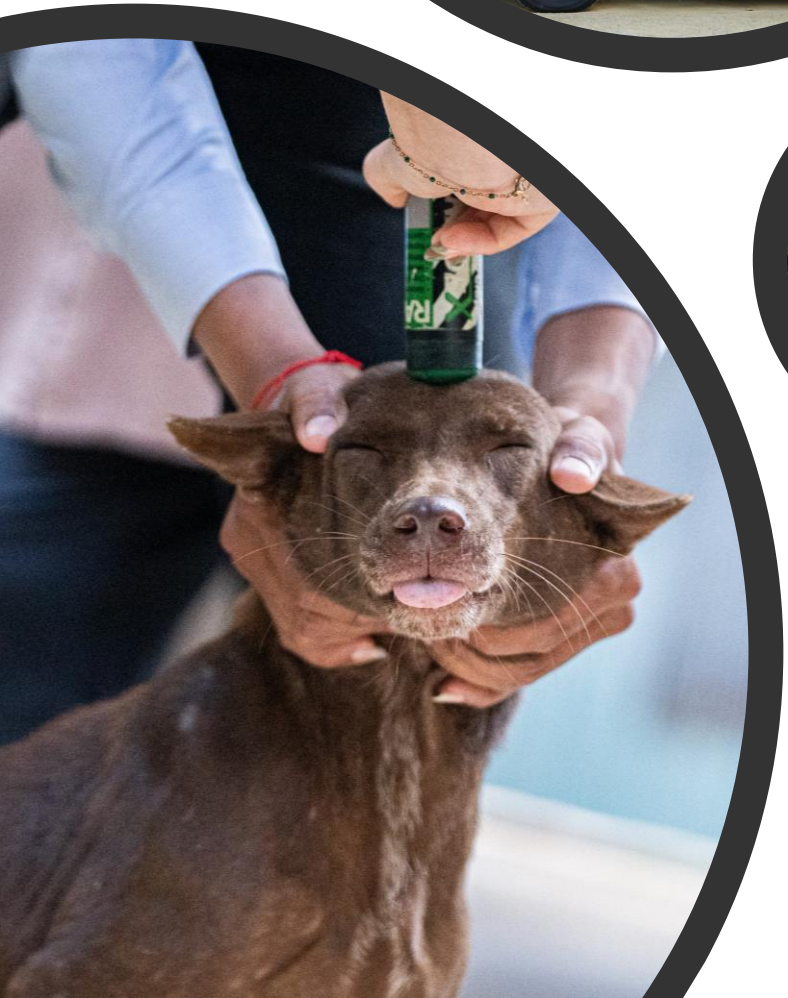

For gov officials to calculate resources required and estimate lengths of national campaigns

Rabies Econ

Estimation of costs and benefits of different vaccination strategies

More tools and information can be found at rabiestaskforce.com/toolkit
