SEACFMD EpiNet Meeting

Development of SEACFMD Roadmap 2026 – 2030

SEACFMD EpiNet Meeting

13 – 15 May 2025, Qingdao, PR China

Background

Objective of the Campaign

- Increased productivity and economic output in the livestock sector by controlling and eliminating FMD
- Enhanced capacities of veterinary services
- Increasing rural livelihoods from strengthened farm-based economies & safer trading
- Improved transboundary trade of livestock and animal products.

SEACFMD Roadmap development

Development of SEACFMD Roadmap 2026 – 2030

- Core Group and National Coordinators to lead
 - WOA H SEACFMD Steering Committee Members
 - WOA H SRRSEA (Secretariat)
 - WOA H – RRAP and HQ
 - WOA H FMD Ref Lab & Collaborating Centres
 - ASEAN Lead country for FMD
- Steering Committee Member will be Advisory Group and work as RAG
- Sub-Commission
- Feedback
 - Specialist Commission – SCAD
 - Global FMD Working Group
 - Private Sectors
 - FAO

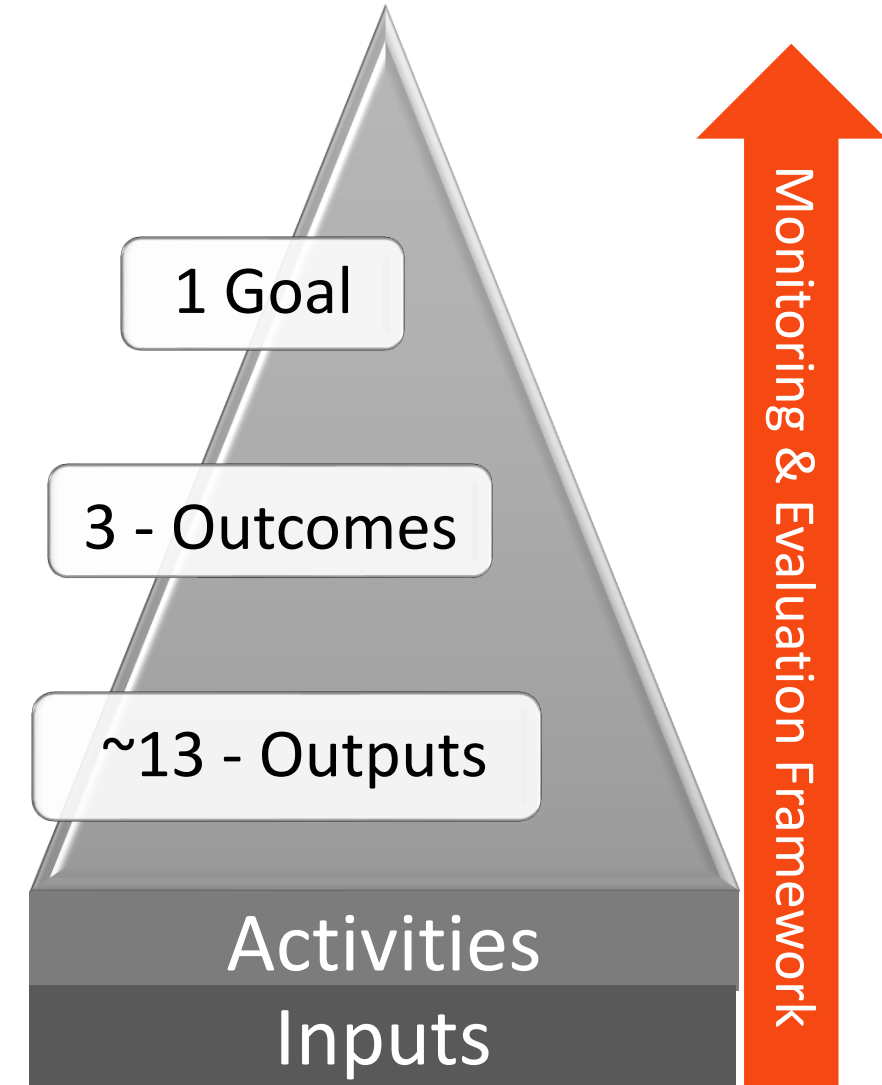

SEACFMD Roadmap 2026 – 2030 (7th Phase – New Era of the SEACFMD Campaign)

Goal:

To achieve regional control of FMD and other TADs, minimizing their impact and enhancing livestock health, trade, and food security in the SEACFMD region

The achievement of the goal will be indicated by:

- For SEACFMD Members with FMD free status – Successful maintenance of their country's and zones' FMD-free status;
- For SEACFMD Members with endemic FMD areas: Demonstrated progress along the FMD Progressive Control Pathway;
- Number of AMS that assessed the burden of FMD through use of a cost-effective tools

SEACFMD Roadmap 2026 – 2030

GOAL

To achieve regional control of FMD and other TADs, minimizing their impact and enhancing livestock health, trade, and food security in the SEACFMD region

OUTCOMES

1. FMD and major TADs control enhanced through risk-based strategies, supporting PCP-FMD progress and maintaining FMD-free zones

2. Improved ownership and enabling environment (policy, legislation, advocacy, workforce) at national level

3. Enhanced partnerships and regional collaboration for effective FMD and TADs control.

OUTPUTS

1.1. Surveillance

1.2 Laboratory

1.3 Movement control and biosecurity

1.4 FMD vaccination and access to quality vaccines

1.5 Emergency preparedness and contingency planning

2.1 Policies and legislations

2.2 Communication and Advocacy

2.3 Cost efficient synergies

3.1: Efficient and effective SEACFMD coordination platforms

3.2: Sustained collaboration with key partners in the region

3.3: Enhanced engagement and multi-disciplinary partnerships with key stakeholders

3.4: Cross border collaboration and partnerships among key stakeholders

SEACFMD Roadmap development

Endorsement of:
SEACFMD Roadmap 2026 – 2030
M&E framework for the Roadmap 2026 – 30
TORs for Governing Bodies including EpiNet, LabNet and PSCC

Initial consultation

M&E framework for the Roadmap

Core Group

World Organisation for Animal Health

Group Work/ World Café Session

Participants will be divided into three groups

Each group will be assigned with one Outcome

Thereafter group rotate and will have opportunity to visit each booth to provide inputs

My café is assigned with facilitators who will assist provide guidance (Facilitator will remain at the station)

Facilitators:

- Boloroo & Veerasak

GROUP 1

Outcome 1 – Risk-based

Malaysia
Lao PDR
Myanmar

Thailand
Indonesia
Philippines
Japan
China

WORLD
CAFE

Facilitators:
- Min & Peng

GROUP 3

Outcome 3 – Collaboration and Partnership

Facilitators:

- Karma & Masako

Cambodia
Singapore
Brunei
Mongolia
China

GROUP 2

Outcome 2 - Country ownership

World Organisation
for Animal Health

Group Work/ World Café Session

Each Group to come up with:

- key targets to be achieved by 2030 for the main inputs
 - Actions/ activities to achieve desired targets by 2030
- Group to come up with

SEACFMD Roadmap 2026 – 2030

GOAL

To achieve regional control of FMD and other TADs, minimizing their impact and enhancing livestock health, trade, and food security in the SEACFMD region

OUTCOMES

1. FMD and major TADs control enhanced through risk-based strategies, supporting PCP-FMD progress and maintaining FMD-free zones

2. Improved ownership and enabling environment (policy, legislation, advocacy, workforce) at national level

3. Enhanced partnerships and regional collaboration for effective FMD and TADs control.

OUTPUTS

1.1. Surveillance
1.2 Laboratory
1.3 Movement control and biosecurity
1.4 FMD vaccination and access to quality vaccines
1.5 Emergency preparedness and contingency planning

2.1 Policies and legislations
