

Tim Parkinson is Emeritus Professor of Farm Animal Reproduction & Health at Massey University, New Zealand. He graduated in the UK from Bristol University and initially worked in cattle practice and cattle AI in the south of England. After his PhD in reproductive physiology at Nottingham University, he lectured in Veterinary Reproduction & Obstetrics at Bristol University. In 1997, he moved to Massey University, where he became Academic Dean of Veterinary Sciences. Tim served on the Veterinary Council of NZ, and has been involved in the accreditation of veterinary schools, mainly in Australasia, for 20 years. He became the chair of the Accreditation Committee in 2017 until retiring in 2022. Tim was registered as a specialist in veterinary reproduction with the RCVS, and became a foundation diplomate of the ECAR in 1999. He was the academic lead in the WOAHP twinning program between Massey University and the University of Peradeniya. His research interests are in reproduction in domestic animals, and in teaching and learning in veterinary students. He is the author of two major text books, *Veterinary Reproduction & Obstetrics* (now in its 10<sup>th</sup> edition) and *Diseases of Cattle in Australasia*.
