

Experience on Implementing Border inspection and Animal quarantine Lao PDR

Laphinh Phithacthep

Head of Division of Veterinary Services
Department of Livestock and Fisheries

1 – 3 July 2025

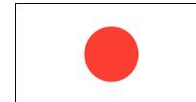

Chiba, Japan

World Organisation
for Animal Health

中华人民共和国农业农村部

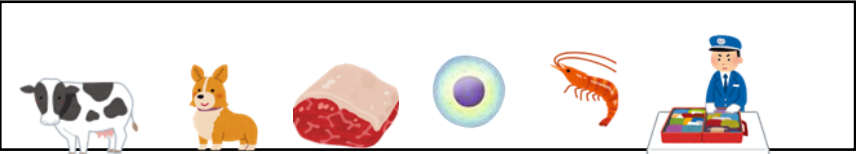

Ministry of Agriculture and Rural Affairs of the People's Republic of China

Organisational Structure for Veterinary Inspection at the Border Post

Ministry of Agriculture and Environment

Division of Veterinary Services (DVS),
Department of Livestock and Fisheries(DLF)

(C) Name of the competent authority, which provides
regulatory and policy direction

Ministry of Health

Division of Control and Check point^D
Department of Communicable Disease Control (DCDC)

	Commodity	Document Check	Quarantine Isolation	Clinical Examination	Serological Test	Pathogen Detection (e.g. PCR)	Other Tests(e.g. visual, chemical)	Responsible Authority
	Livestock (e.g. cattle, pigs)	Yes✓/ No	Yes✓ / No	Yes✓ / No	Yes✓ / No	Yes ✓/ No	Yes ✓/ No	
	Companion animals (e.g. dogs, cats)	Yes✓/ No	Yes / No✓	Yes✓ / No	Yes / No✓	Yes✓ / No	Yes / No✓	
	Products of animal origin (e.g. meat, eggs)	Yes✓/ No	Yes / No✓	N/A	N/A	Yes✓ / No	Yes✓ / No	
	Animal generic materials (e.g. semen, embryo)	Yes ✓/ No	Yes / No✓	N/A	N/A	Yes✓ / No	Yes / No✓	
	Aquatic	Yes✓/ No	Yes / No✓	Yes ✓/ No	Yes / No✓	Yes ✓/ No	Yes✓ / No	
	Passenger luggage	Yes / No✓	N/A	Yes / No✓	N/A	Yes / No✓	Yes / No✓	

Physical examination

Disinfection of transport vehicles

Current Situation and Key Issues

- Top 3 Animals with the highest import volume: Chicken, Pig and fingerings
- Top 3 Animal Products with the highest import volume: sea food, beef and chicken meat
- Commodity with significant change in import volume in recent years: There is no significant change

Good Practices in Border Inspection and Quarantine

- There are clear procedures in the check point which indicate the steps and duties of each sector such as: police, custom, quarantine authorities, transport, etc
- Exchange the information with other border side

Challenges and risks identified

- Difficult to check the big trucks and luggage
- In some check points, there is no quarantine facility in case of some animal showed illness symptoms
- Language is still the problem of communication
- Traders try to escape or not follow the regulations

Collaboration with other agencies

- Monthly meeting with other agency inside the check point
- Bilateral meeting with Thailand, Vietnam
- Collaborations between our check points with neighbor check points of neighboring countries by conducting monthly rotation visit

Thank you
