# Workshop Introduction & Agenda

Waroonsiri Charoenlarp
Animal Health Officer
WOAH SRR SEA

# Objectives

1. To identify priority gaps, challenges, needs, and opportunities for strengthening biothreat prevention, detection, and response in South-East Asia based on the information from the Virtual Consultative Meeting in April 2026.
2. To explore additional pathways to enhance collaboration and capacity building, including private-sector engagement, joint training mechanisms, and cross-border information-sharing channels.
3. To identify mechanisms, partnerships, and ASEAN sectoral bodies that can effectively coordinate, institutionalise, and sustain biothreat collaboration across animal health, public health, security, law enforcement, and laboratory sectors.
4. To develop a practical and collaborative regional workplan, including actions, timelines, and responsible actors, to guide future biothreat reduction efforts and capacity-building activities.
