Inject cards

Facilitators: print, cut along the dashed lines, and release at the start of each exercise.

Inject A

Backup rumour · Day 2 mapping exercise (only for tables with no rumour)

A viral video claims that eating chicken and eggs causes "bird flu" in children. Egg sales in the capital have dropped 40%.

Inject E

Day 2 table-top · Valaria, day 3 of the outbreak

A social media post claims a new outbreak in a neighbouring province. Veterinary Services has no report there.

Inject C

Day 2 table-top · Valaria, day 3 of the outbreak

An image circulates showing soldiers burning chickens in a village. It appears to be AI-generated, but a village leader shares it.

Valaria is a fictional territory. Facilitator guidance: keep injects realistic, not dramatic. The point is decision-making under time pressure.
