# Feedback from the Questionnaire – Testing the System

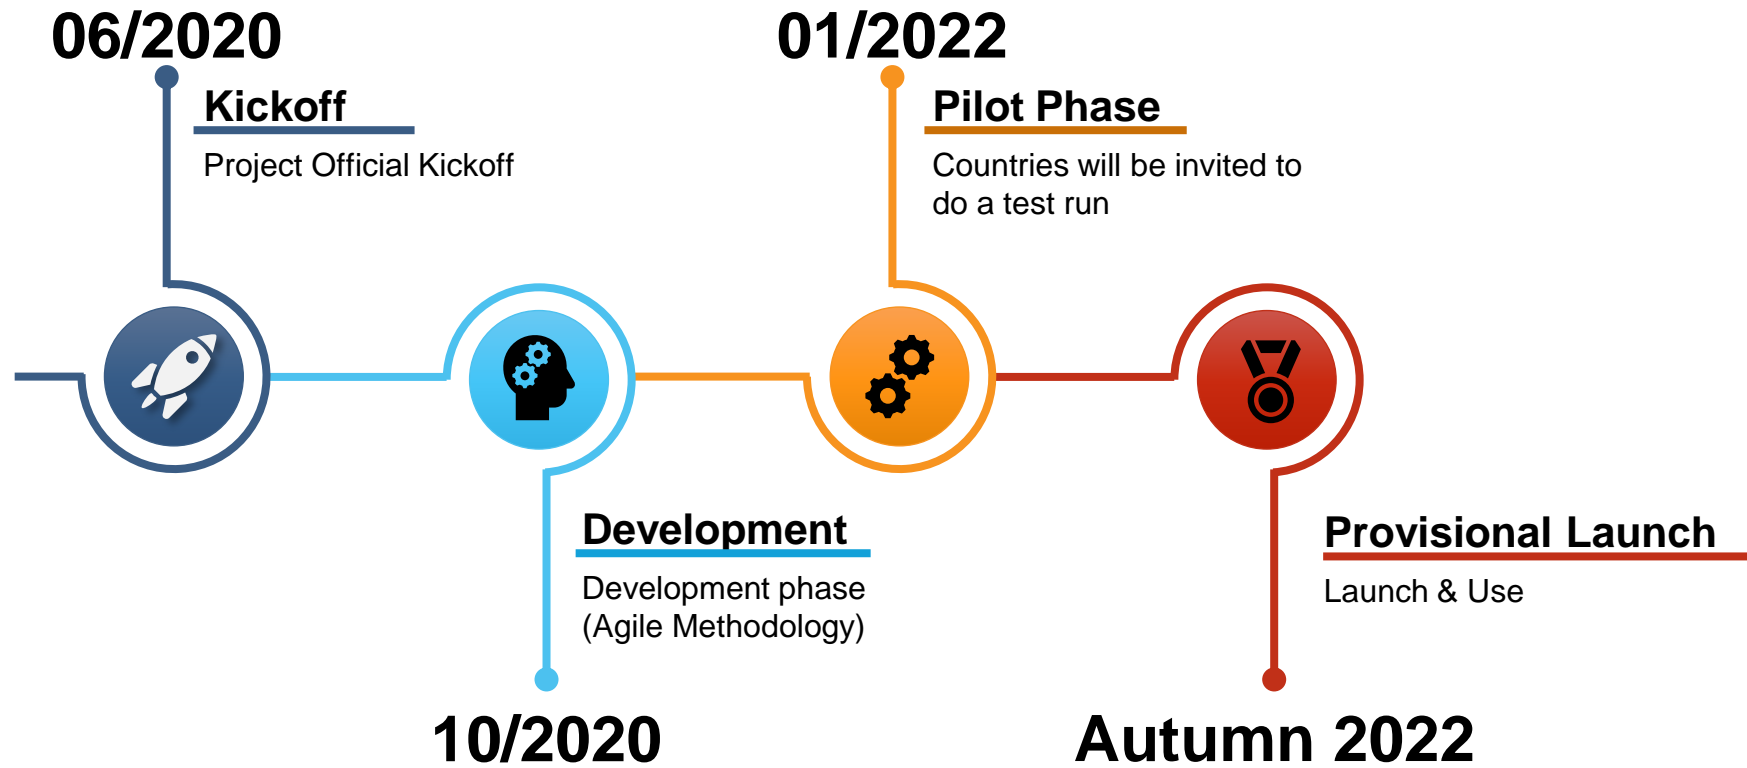

Are you willing to participate in the pilot testing of the AMU System?

# Development Phases

# Timelines

# Summary of Key Benefits

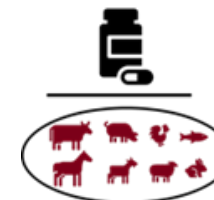

## Historical Data

Access to historical data from previous rounds of data collection

## OIE-WAHIS Integration

The integration of OIE-WAHIS will provide an analysis of the antimicrobial quantities (mg) adjusted by animal biomass (kg)

## Calculation Module

Formulas will be integrated in the System allowing Countries to calculate and report quantities thus improving the accuracy of data

## Data Ownership

Countries will have access to their own data which they can analyse and make informed decisions

## Business Intelligence Reporting

The system will be integrated with a Business Intelligence tool allowing faster and accurate data analysis and reporting
