

PVS Planning Exercise for the next 12-18 months

**1st OIE PVS Pathway Orientation Training Workshop for South
Asia and Mongolia**

12-15 February, 2019, Paro, Bhutan

Planning Exercise

- › You now know a lot about the PVS Tool and its various applications within the PVS Pathway, so..... what are you going to do about it!?
- › Work in your individual country groups – please welcome one “outsider” trainee to join you
- › Develop planning for your PVS engagement over the next 12 (to 18) months
- › Consider your staging and both established and newer options as per the cycle.....
- › Develop big picture planning based on cycle
- › Develop detailed planning based on mission management

ORIENTATION

- A Sub-Regional Orientation Training Workshop
- B Sub-Regional Lessons Learnt Workshop

EVALUATION

- A PVS Evaluation
- B PVS Evaluation Follow Up
- C PVS Self-Evaluation
- D PVS Evaluation (Aquatic)
- E Specific Content (PPR, AMR)

OPTIONS

PLANNING

- A PVS Gap Analysis
- B PVS Strategic Planning Support

TARGETED SUPPORT

- A One Health Integration (PVS/IHR)
- B Veterinary Legislation Support
- C Sustainable Laboratories
- D Veterinary and Para-professional Education
- E OIE National Focal Points Training

JEE – 2017
FU REQUEST
2019 (tbc)

Pakistan

PVS Evaluation -
2014
IHR/PVS - NBW –
2017
GAP REQUEST –
2019 tbc

e.g. PVS Self Evaluation

- › National PVS training option?
- › For those with the intention and capacity, consider PVS self-evaluation - at national or sub-national level?
- › Pros – control, sub-national, detail and open timeframe
- › Cons – not independent, poor engagement outside VS, less “weight” at senior level
- › OIE can assist with training/planning but the mission must be conducted and the report must be written only by Nationals and without outside support, as a true self-evaluation
- › Undertake planning based on the framework provided
- › Results will be presented and discussed in a plenary session with all participants

Points to be considered for PVS Self Evaluation

- > Overall coordination of the PVS Self-Evaluations at national level
- > Coordination of the Self-Evaluations at jurisdictional levels
- > Team line-up, consistency, shared learning opportunity?
- > Duration of the mission(s)
- > Sites/establishments sampling
- > Involvement of interested parties/stakeholders
- > Reporting the results at national and international levels
- > Any other point deemed relevant

PVS Evaluation Follow Up or Gap – 3 key elements of detailed planning

- > Request or not?**
- > If not yet, how to get one?**
- > Interest in new options? (specific content – PPR or rabies; Gap + Strategic Planning)**
- > National Consultation – up, down, across, up**
- > Mission documentation**
- > Itinerary**

PVS Targeted Support?

Interest in one or more of?

- > **PVS/IHR**
- > **Legislation**
- > **Labs**
- > **VEE/VPP**

If so, what are next steps?

OIE Partners

- What role can we play in engaging and supporting PVS?
- How can we use existing reports more effectively? (PVS reports operational database project)
- Does PVS align with any of our existing or pending programmes or projects? Can they be leveraged? How? What are the steps?
- For countries that would benefit and may be interested, can we support countries before, during or after?
- Consider regional approaches and support with OIE - regional report analysis, regional prioritisation, regional projects.....

Have all a fruitful exercise!
