Outbreak Investigation

Introduction

Cord Heuer

Prof. em. Veterinary Epidemiology and Infectious Diseases

EpiCentre, Massey University

EpiCentre

MASSEY UNIVERSITY
TE KUNENGA KI PŪREHUROA
UNIVERSITY OF NEW ZEALAND

Australian Government
Department of Agriculture,
Water and the Environment

Expected outcomes

- Implement key epidemiological components of outbreak investigation with confidence;
- Conduct participatory household and village level interviews for collecting relevant outbreak investigation data;
- Compile timely and accurate outbreak investigation reports;
- Develop training modules and train veterinary field staff in outbreak investigation.

Facilitators

- Dr Art Subharat (EpiCentre, Massey) 'Art'
- Dr Chris Bartels (Animal Health Works) 'Chris'
- Dr Ash Sutar (OIE SEACFMD) 'Ash'
- Dr Bolortuya Purevsuren (OIE SEACFMD) 'Boloru'
- Dr Karma Rinzin (OIE Bangkok) 'Karma'
- Dr Sith Premasathira (DLD, Bangkok) 'Sith'
- Prof. Cord Heuer (EpiCentre, Massey) 'Cord'

Structure

Contents

- **Week 1**: Adult learning (ToT)
- **Week 2**: Biosecurity and sampling
- **Week 3**: Epidemiological investigation
- **Week 4**: Communication and local response
- **Week 5**: Bringing it together (in-country workshop)

Facilitators

- Chris
- Ash, Boloru, Karma
- Art, Cord
- Chris, Sith
- Everyone:
 - [subject to travel permission]

Date

- 31 May'21
- 07 June'21
- 14 June'21
- 25 June'21
- 02 July'21

Material, tasks, interactions, assessment

- Listening: introductory video-lectures online
- Reading: material provided online
- Online learning modules
 - Information: module introduction
 - Tasks: participant's own working
 - Quizzes: self assessment, multiple choice
