Total	1,580	154

- Prevention of new FMDV introduction
- Early detection and rapid outbreak response
- Animal movement control
- Stamping out policy, especially for pigs
- Compensation
- Cleaning and disinfection
- Vaccination
- Free FMD establishment
- Communication

FMD PREVENTION AND CONTROL ACTIVITIES

Constraints & Solutions

- High percentage of small-scale farms
- Free grazing practice
- Control animal movement between provinces and across border
- Deal with infected animals
- Vaccination programme: Vaccines supply and cost of vaccines
- Post vaccination monitoring
- Surveillance system
- Awareness of livestock owners and local authorities

- Implement the national programme on FMD control during 2021 – 2025
- Utilize VAHIS (Vietnam Animal Health Information System) for FMD reporting
- Establish FMD free-zones and compartmentalization
- Conduct research on FMD epidemiology
- R&D for domestic FMD vaccines

Way Forward
