

# FAO support in response to the FMD incursion in Indonesia

FAO is providing direct support to the Government of Indonesia through coordinated and specialized centralized and decentralized programmes

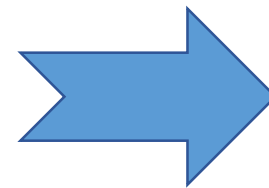

Animal Health and Production Programme

Emergency Centre for Transboundary Animal Diseases (ECTAD)

Emergency Management Center (EMC)

European Commission for the Control of Foot-and-Mouth Disease (EuFMD)

Practical support and guidance to address the emerging threats posed by the current FMD epidemic and to safeguard efficient livestock production and smallholder livelihoods

## Four key areas of support

- 1) Technical assistance on FMD emergency response;
- 2) Technical assistance and expert advice on disease control strategy options and implications;
- 3) Resource mobilization to assist the delivery of emergency & risk-based control interventions, including vaccination;
- 4) Capacity building and workforce development for the animal health workforce at central, laboratory and field levels

- 1) Technical assistance on FMD emergency response and expert advice in disease control strategy options and implications
- 2) Resource mobilization to assist the delivery of emergency and risk-based control interventions and vaccination

High-Level  
Consultation  
Meetings on FMD  
Control Policy  
Options and  
Implications

Deployment of FMD  
subject matter experts  
mission, to support  
short and medium  
terms actions needed  
to control further  
spread of the disease

Assistance  
with  
emergency  
vaccine  
procurement

Technical dialogues  
with International  
Expert Networks and  
Disease Managers  
from countries with  
relevant FMD control  
experience

3) Capacity building and workforce development for a range of animal health workforce at central, laboratory and field levels

Adaptation and translation of virtual FMD Field Investigation Training

Creation of a safe virtual space for technical consultations and exchanges

Provision and adaptation of risk communication and awareness resources

Expert  
Consultations &  
Resource  
Mobilization

Capacity  
building

27 May 2022  
- Ongoing

12 - 20 June 2022

Starting end of  
June 2022

Expert in country  
Mission

\*Regional Incident Coordination Group on FMD
