

## Group 3 Output - Group Work Session to assess M&E Indicators for SEACFMD Roadmap 2021 2025

### Key Questions:

- Is the identified M&E Indicators relevant to measure the progress of SEACFMD Campaign?
- How to measure these indicators?
- How to enhance collection of data/ information for the M&E Indicators?
  - o Facilitator: Dr Harish Tiwari
  - o Rapporteur: Dr. Donald King

Objective/ Outcome/ Outputs	Indicator	Relevancy	How to measure?	Data collection
<b>Output 1.4</b> Preparedness and response capacity to both endemic and new FMD viral strains developed.	I.6 Members have functional preparedness and response capacity to endemic and new FMD viral strains.	<ul style="list-style-type: none"> <li>• Understanding strains is critical                             <ul style="list-style-type: none"> <li>- FMD vaccine provide protection against specific serotype and strains</li> </ul> </li> <li>• Countries in the region are challenged by endemic and exotic viruses, ex. 2001E Laboratory support to characterise circulation of viruses</li> </ul>	<ul style="list-style-type: none"> <li>• Regulations</li> <li>• Availability of laboratories with adequate capability                             <ul style="list-style-type: none"> <li>- lab proficiency test to assess capability</li> <li>- trained manpower</li> </ul> </li> </ul> Regional specific material exchanged to harmonise results	<ul style="list-style-type: none"> <li>• Number of samples submitted and characterised</li> <li>• Number of people trained in laboratory techniques, sample collection, and transport</li> <li>• Regional exchange of data (surveillance and vaccine matching)</li> </ul>
<b>Output 2.4</b> Multi-disciplinary and multisectoral efforts implemented for control of FMD (and other related TADs).	I.11 Number of activities/ partnerships co-organized with the public and private sectors.	<ul style="list-style-type: none"> <li>• Optimising limited resources is critical</li> <li>• Exchanging best practices and synergies</li> <li>• Stakeholders knowing their roles</li> </ul>	<ul style="list-style-type: none"> <li>• One command task force</li> <li>• Well layer out policies, regulations, and SOP</li> </ul>	<ul style="list-style-type: none"> <li>• Regular surveys (published)</li> <li>• Regular of policies, regulation, SOPs (published)</li> </ul>

			<ul style="list-style-type: none"> <li>• Engagement of stakeholder to influence policy <ul style="list-style-type: none"> <li>- Number of relevant stakeholders and private</li> </ul> </li> <li>• Number of meetings of stakeholders</li> </ul>	
<b>Output 2.5</b> Cost-efficient synergies with other livestock activities implemented	I.12 Number of activities identified and implemented that are in synergy (FMD and other TADs activities)	<ul style="list-style-type: none"> <li>• Flexibility of response, prevention, and detection (efficiency)</li> <li>• Better utilisation of all resources (saving money and time)</li> <li>• Ability to prioritise</li> </ul>	<ul style="list-style-type: none"> <li>• Comparing time response within country and across</li> <li>• See point 2.4</li> </ul>	<ul style="list-style-type: none"> <li>• Collect response time</li> <li>• See point 2.4</li> </ul>
<b>Output 2.6</b> Pool of regional experts actively involved in SEACFMD activities.	I.13 Number of national experts who have been included in regional and national FMD activities, annually.	<ul style="list-style-type: none"> <li>• Relationship (build trust) to share data</li> <li>• Updated information (transboundary information) - timely</li> <li>• Builds confidence in stakeholder (farmers, etc) - credibility</li> </ul>	<ul style="list-style-type: none"> <li>• Updated information of webs sites/regional document</li> <li>• Succession planning for new/future experts</li> <li>• peer reviews of selection process</li> </ul>	<ul style="list-style-type: none"> <li>• Number of hits on websites/contacts/queries</li> <li>• Regional meetings (workshop and seminars) – organised and attended</li> <li>• Engagement of other expert in FMD regions (pools meetings)</li> </ul>
